Pressing toward the  
**GOAL**  
of a global harvest.

Your **Day's Wage** to the Global Outreach Offering is the primary resource for church planting and new field evangelism worldwide in the International Pentecostal Holiness Church. It literally reaches around the globe and changes eternal destinies!

**What do we mean by giving a Day's Wage?** It simply means you can evaluate how much you are paid for a day's work, then commit to giving the same amount towards the Global Outreach offering.

For us to reach our harvest, it will take a joint effort of all our churches and members. If each of our U.S. based members were to give a **Day's Wage** we could easily generate the needed funds for accomplishing ministry around the globe.

The combined efforts of the IPHC ministries position us to reach a global harvest of untold proportions! And, you can help shape the history of this harvest. The potential resource of many doing a little presents exciting possibilities.
